# Our story

WHEN WE FIRST MET WITH COMPASS POOL IN AUSTRALIA,  
IT WAS LIKE A BOLT FROM THE BLUE FOR BOTH OF US.

As we got to know the product, we decided that we have to bring it to Europe. Right at that time we made it our mission to evoke the same emotions that we experienced in our end customers. Together, with our team and with our dealers, we are trying to push the borders of a traditional pool sale to a high emotional experience.

We take satisfaction in having customers content with our products and improving the lifestyles of thousands of families all over the Europe.

Compass Europe has grown from a new company in 2005 to one of the most successful pool brands in Europe. We operate in 34 countries and till now we have produced more than 7,000 pools, which bring joy, connect people and let them share the emotions together.

This year we celebrate the 10th anniversary of our European factory. This is the first important milestone and an opportunity to look back at our achievements. During this long time, we went through the complications of importing the pools from Australia, experienced joy of the first produced pools in Slovakia and Europe, achieved to add Carbon fibre to our pools and enjoyed our first exhibitions and wonderful conferences in Gran Canaria, Dubai or Caribic.

There were many successes and failures. But when our Yachtpool won the international design awards, Red Dot and iF Design Award, this moment was the most special for us.

10 years in business is a long time, during which business partners have become friends or almost family members. Most of our dealers are with us from the beginning and together we created a Compass Family.

We are proud to say, that we achieved all of this.

Thank you for your support and let's enjoy every moment ahead of us.

# Technology & Innovation

A POOL. FOR SOME IT IS ONLY A LIFESTYLE, FOR SOME IT IS THE STATUS FOR STRONGEST MOMENTS.

But all have the emotions in common. For us at Compass it is all combined with enthusiasm and passion for our work. Fun and family inspired, modern and high-quality. After all, for us something is only good enough when we've made it even better.

COMPASS Factory team

We brought many innovations to our new factory. We are proud to say that our new factory was designed to allow us to work in an eco-friendly manner and to give us more flexibility by fulfilling expectations of our customers.

### FACTORY INNOVATIONS FOR 2016:

- most advanced spraying guns
- patented Air Exchange Technology
- significant reduction of waste emissions
- flexible in the daily production
- TOP quality control, directly switched to SAP system

How can we produce a high quality product without TOP class materials?  
Our suppliers are carefully chosen and tried so they fulfill our expectations. Most of them are the best on the market and they are with us from the beginning of our own production.  
All of us are working together to deliver you healthy, safe and quality pools.

COMPASS SELECTION

# Selection

WE BUILD HOUSES AND START FAMILIES. WE SAIL YACHTS.  
WE ARE ACTIVE AND DO ALL KIND OF SPORTS.

We've achieved one goal and the next one is already waiting for us. Can we just stop for a while?  
No, we can't. Neither do we want to. We still want to get the best. For us something is only good enough  
when we've made it even better. Why? Because we are showing intensity.  
We enjoy creating the moments full of excitement from everyday life.

### LARGE POOLS ( 8.8 – 11 m )

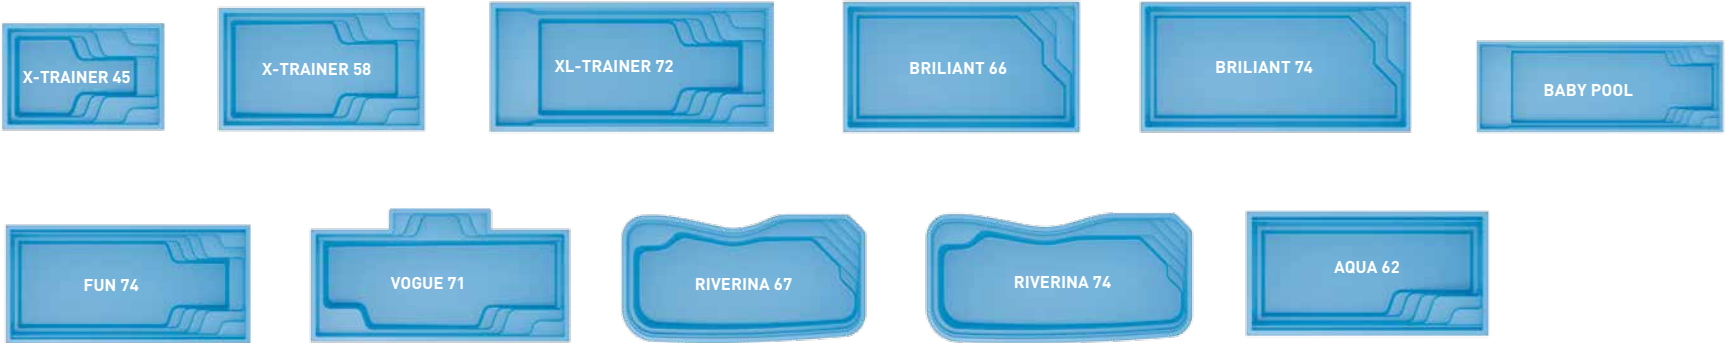

# SMALL GARDEN POOLS

# Small

( ≤ 7.5 m )

These pools are designed for houses with a small area or a garden behind or next to it. You can choose from a variation of models, which are effective in their concept and can adapt to every small garden. Fulfill now your dreams about having a pool even though you own a smaller area. This range of pools makes it happen.

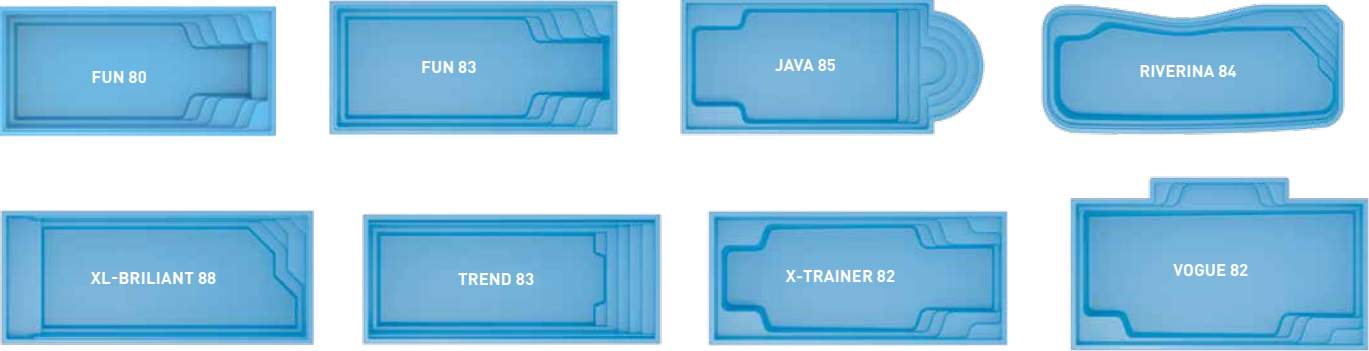

# MEDIUM POOLS

Bestseller

( 7.5 – 8.8 m )

Our bestselling pools are ready to shine as a diamond in every garden or inside the houses. Just add some water features and your real fun with your family can start.

# LARGE POOLS

# Premium

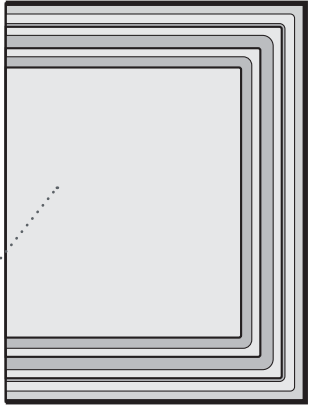

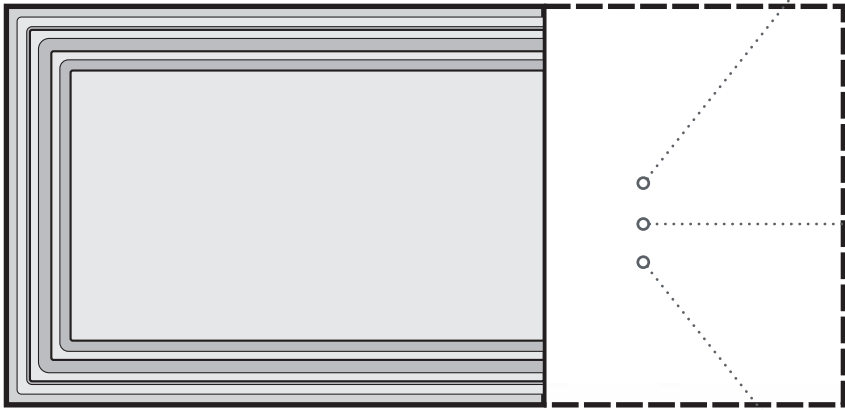

( 8.8 – 11 m )

It doesn't matter if you are a professional swimmer or not, these pools offer a real swimming pleasure, thanks to their length and also two swimming lines in most cases.

# SELF-CLEANING POOL

# Vantage

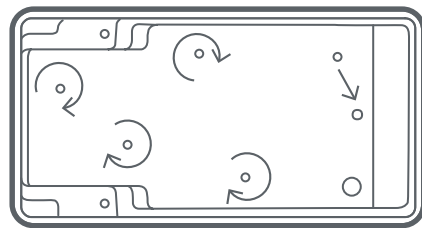

VANTAGE is a number one in the world among circulation and cleaning systems and it is much more efficient than any pool vacuum cleaner. It provides efficient and high-performance cleaning from the surface to the bottom of the pool. Its massive patented telescopic nozzle „Pop-up“ is able to cover a four times larger area than small devices and therefore it copes even with larger pieces of debris.

### CUSTOMER BENEFITS

- the best self-cleaning system for composite pools in the world
- circulation eliminates growth of algae and bacteria
- circulation reduces the use of chemicals

SELF-CLEANING  
POOL WORK?

# SET UP A PERFECT TEMPERATURE BEFORE YOU GET HOME

*iQ system*

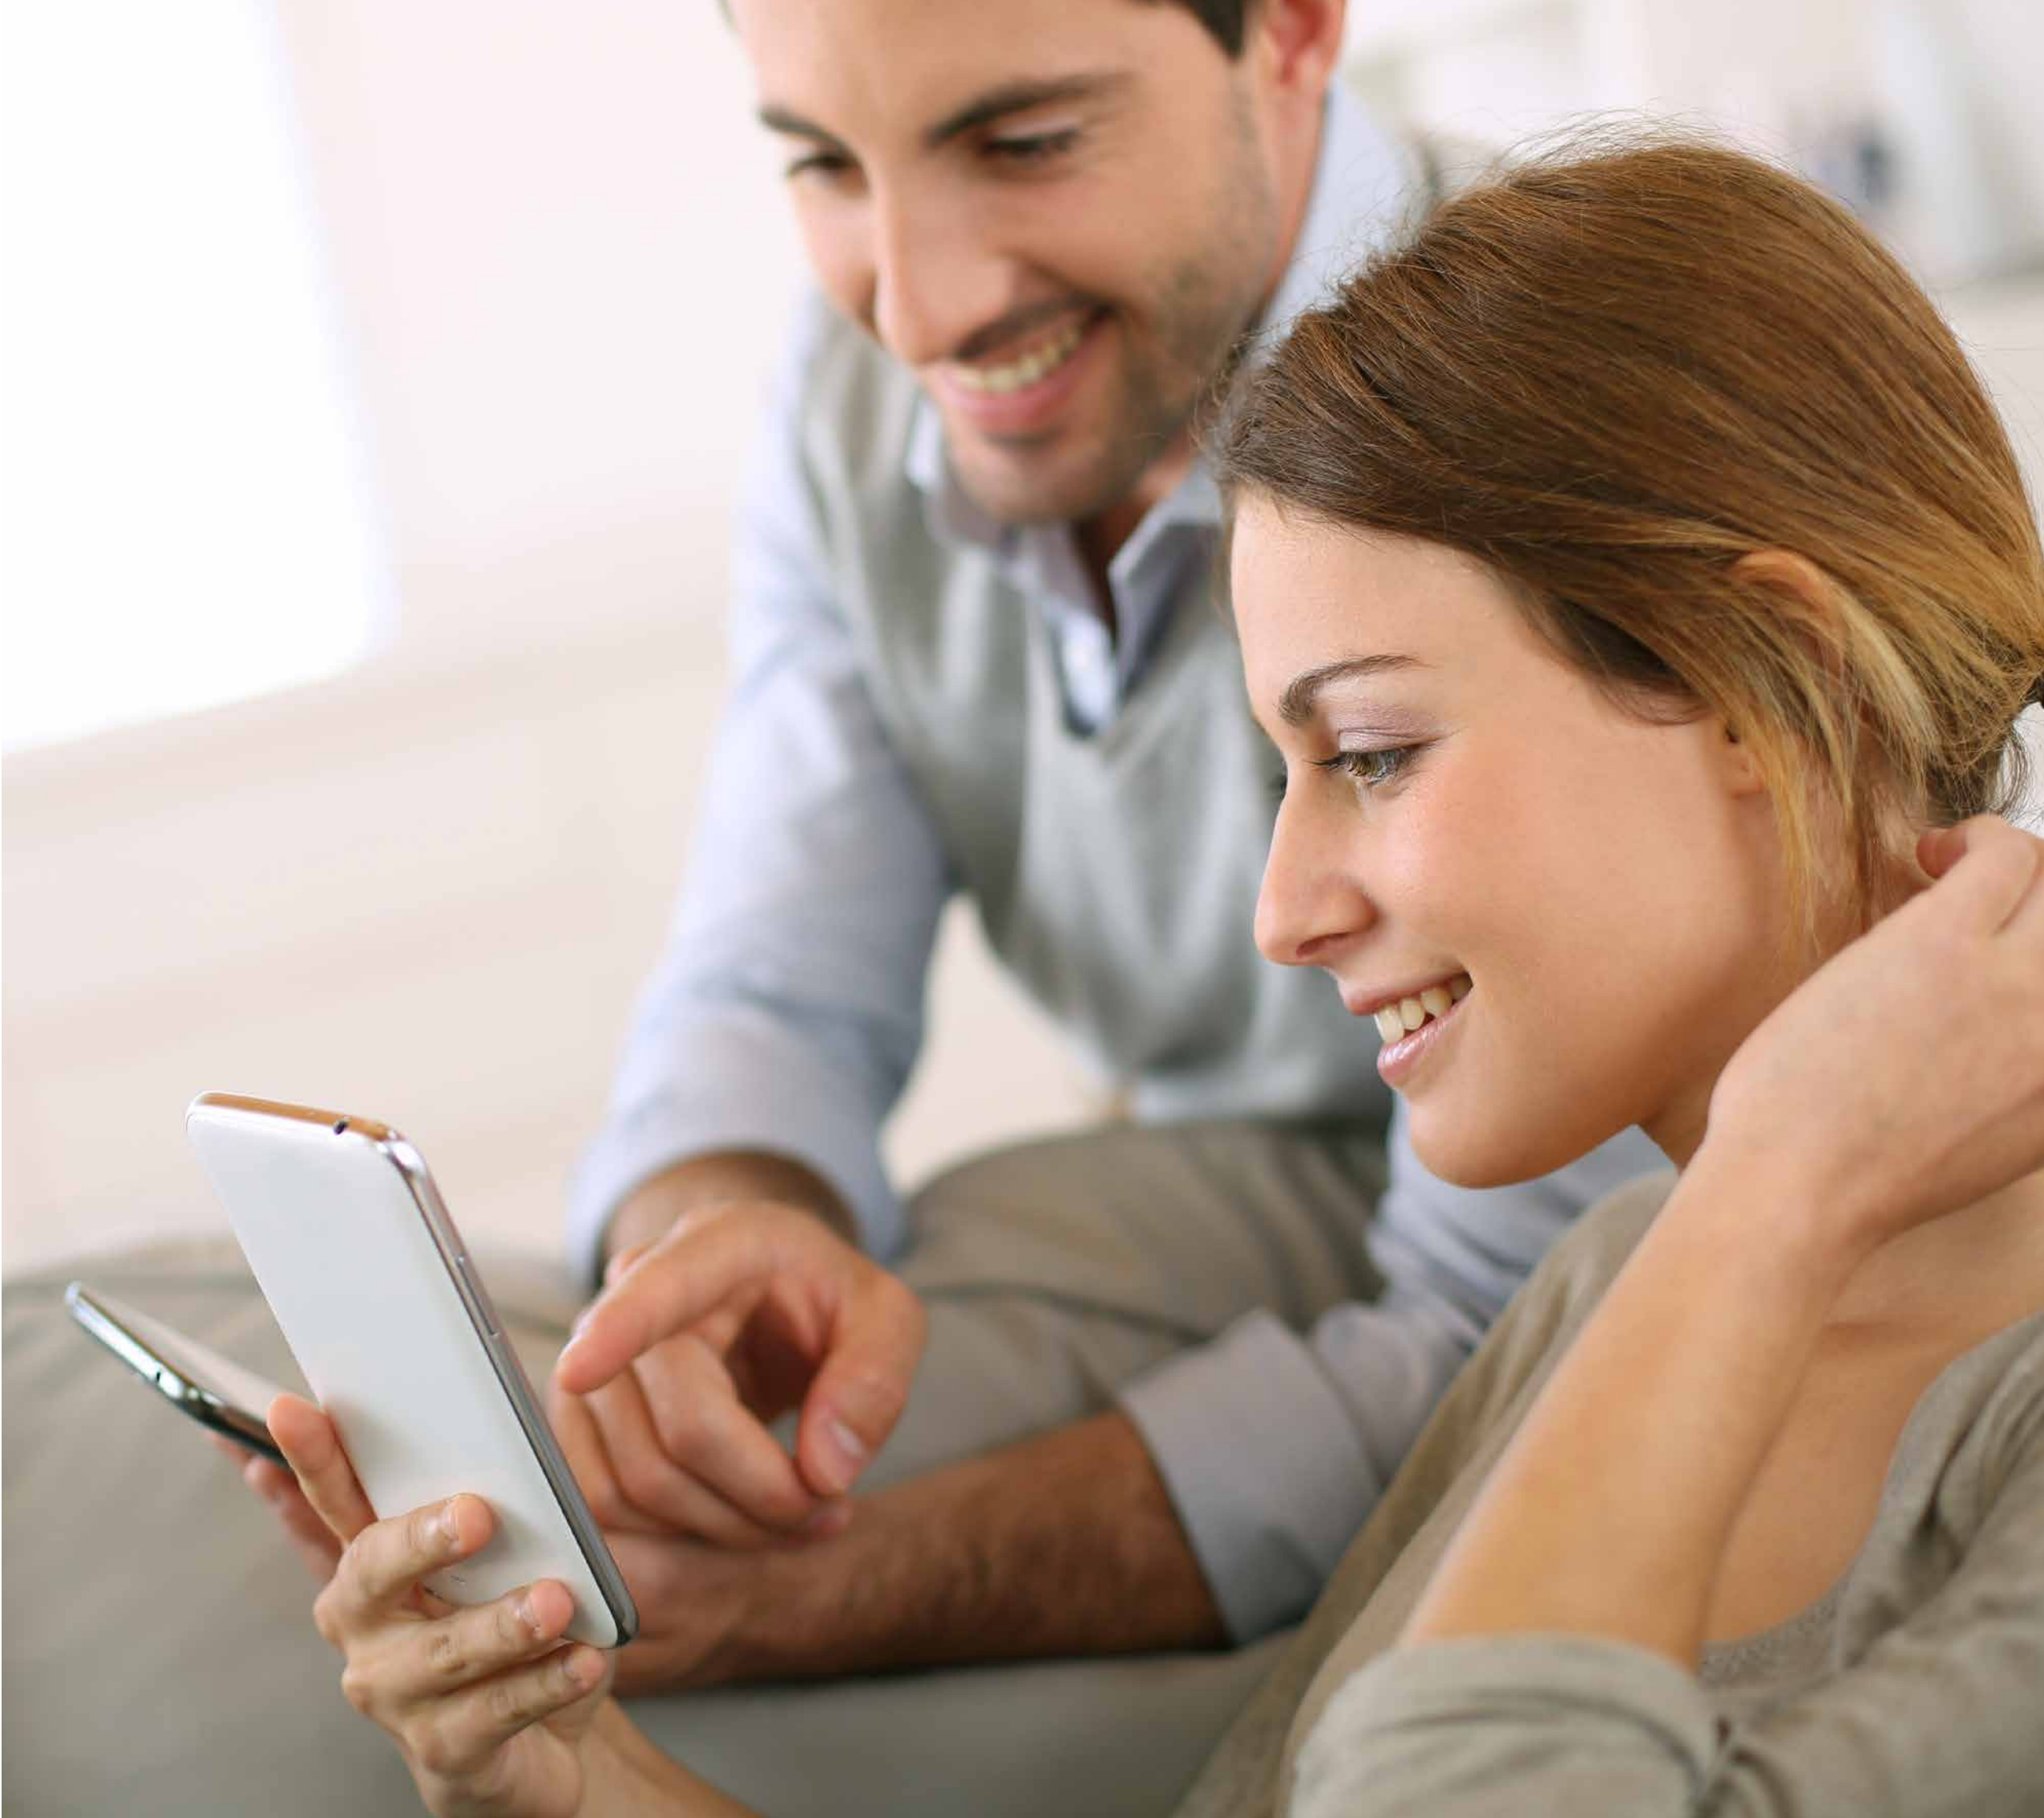

Compass Pools iQ provides management of all components of the pool and other features. The pool remains in excellent condition and it is maintained according to set values. The pool is connected to the internet through a convenient web application and it is possible to monitor the current status of the pool from anywhere.

CUSTOMER BENEFITS

- sophisticated chemical and technical analysis of water
- user-friendly remote management of pool controls
- access to normally invisible data
- reduce chemicals and environmental impact
- MORE TIME SPENT IN THE POOL... FOR PLEASURE

HOW DOES  
iQ WORK?

# THE ENERGY EFFICIENCY AND FULL SAFETY

## Rollo Cover

By means of capturing freely available solar energy, solar slats ensure optimal warming of swimming pool water by 4 to 8 °C depending on the season and geographical location. At night, evaporation and heat loss are limited to a minimum. The Compass Pool Rollo Cover can bear the weight of a small pet, child or even an adult. For maximum safety, an integrated perimeter guiding ledge prevents submersion of the slats when weighed down.

### CUSTOMER BENEFITS

- guarantees maximum energy efficiency and full safety
- ensure optimal warming of swimming pool water by 4 to 8 °C
- evaporation and heat loss are limited
